Product Development Internship/Project (ME/ChemE)

• Help design and prototype a product that will disrupt a $250 billion-dollar industry, increase public health, and curb environmental waste

• Opportunity related to gas pressure and mechanics (ME), gas to liquid transfer (ChemE), and customer product design. NDA required

• Preference given to those with CAD or other design program experience and experience/interest in creating physical prototypes

Resumes to Adam at drinkaquaspark@choco.la or text 801-368-7282
