Monte Marshall
Brigham Young University
Ira A. Fulton College of Engineering
College Personnel Advisement

Abstract:
The 2-Hour Job Search rejects conventional job search strategies and empowers students to obtain the very best opportunities in a competitive job market. The presentation will give an overview of this networking strategy. You will be interested to see the results from implementing this strategy in the Chemical Engineering Department. You will also be introduced to helpful tools that will simplify the job search.

Biography:
Monte Marshall brings a wealth of experience to his position as the Director of STEM Career Services. His responsibilities include building recruiting relationships with large and small companies from across the country. Most recently, he traveled to California and Florida to visit with companies including NASA, Lockheed Martin and Disney Imagineering. Monte loves enabling students to connect with great career opportunities.
