CAD DESIGNER

Ion Solar is one of the nation's fastest growing, full-service residential solar companies. With offices in six states across the country and a growing workforce of over 200 employees, Ion Solar is providing a simple, affordable way for homeowners to switch to solar.

We are currently seeking strong leaders to support our company growth and continued success. We have a great work environment that fosters individual growth and allows our team to enjoy helping people go green.

The CAD Designer role works with AutoCAD, Excel, Solmetric & Salesforce software programs to create drawings & schematics to be printed and sent for permitting. Our CAD Designers work closely with our in-house licensed electricians to prepare efficient, viable and safe solar PV systems for project municipalities & installation crews.

Required Qualifications:
- Highly organized
- Proactive, self-starter
- Problem solving skills
- Detail oriented

Wage and Benefits:
- $12-$15/hour + bonus depending on experience and performance
- Affordable Health, vision, dental insurance
- Paid Time Off
- Sick/Personal Leave
- 8 Paid Holidays
- Employee Discounts

Job Type: 40 Hours/Wk or Full-time

Required education:
- 2 years of post-high school education

Preferred experience:
- CAD Design: 1-3 months

Please send all resumes to: cbrown@ionsolar.com. Only those chosen to be interviewed will be contacted.

We are an equal opportunity employer. All applicants will be considered for employment without attention to race, color, religion, sex, sexual orientation, familial status, gender identity, national origin, veteran or disability status, or any other protected class.
