Internship, Job, Building Carbon Fiber Guitars

KLOS Guitars is an up-and-coming guitar designer and manufacturer of carbon fiber travel guitars. We are currently looking for interns that have the following qualities and skills:

- Good hands on skills, particularly in: engineering, manufacturing, industrial design, and high attention to detail
- Anyone who is excited about music, guitar playing, and who is curious about the building process, manufacturing, supply chain.

Paid positions are open. All ages and levels are welcome to apply. The job would take place in Provo at our workshop. As an intern you would learn a great deal about carbon fiber, composites, starting a business and lean manufacturing.

Please contact Ian Klosowiak if interested.
